DETAILED ACTION

1. Amendment B filed June 25, 2002 has been received and entered into the record.
2. Claims 1-8 and 10-16 are pending in the case.
3. The text of those sections of title 35, U. S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

4. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, Claim(s) 1-7 and 12-14, drawn to aminooxy-cyclodextrin derivatives.

Group II, Claim(s) 8 and 16, drawn to a method of preparing aminooxy-cyclodextrin derivatives.

Group III, Claim(s) 10 and 12 (when acetone oxime derivative is selected), drawn to oximes of aminooxy-cyclodextrin derivatives.

Group IV, Claim(s) 11 and 15, drawn to derivatives of nucleotide or nucleoside pyrimidines or purines with aminooxy-cyclodextrins.

5. The inventions listed as Groups I to IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of each group fails to establish a single general inventive concept as require because Claim 1 of Group I sets forth aminooxy groups limited to the formula X-Y-ONH₂, whereby Claim 8 of Group II sets forth an aminooxy group that uses the formula Z-Y-ON=C(CH₃)W, which is a different general inventive concept from the aminooxy group that is set forth in Claim 1. The oximes and nucleotide or nucleoside that is set forth in

the claims for Groups III and IV also relate to an inventive concept that is different from the aminooxy group that is indicated for the claims of Groups I and II.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
